Projects

I. Background

CPCS is a Cambodian NGO working in the field of peacebuilding and conflict transformation in Asia. Our mission is to strengthen strategic intervention into armed conflict with the overall goal of reaching sustainable and positive peace in the Asia region. CPCS is home to a range of interconnected programmes and initiatives that are informed by on-going analysis and consultation with a myriad of local partners from the various contexts in which CPCS works, including Myanmar, the Philippines, Cambodia, and Sri Lanka. CPCS is an outsider organisation, and conducts research and delivers resources that are not available within the communities, thus not competing with local organisations. Being based in Cambodia also provides space to bring participants of our interventions out of their contexts when hosting programmes, allowing for more freedom to critically reflect on their context and strategies for moving forward towards peace.

CPCS focuses on demand-driven interventions that are informed by critical analyses and tailored to the needs of stakeholders within their conflict contexts. To enhance the sustainability of outcomes, CPCS prioritises long-term accompaniment over one-off programmes. Through this approach, CPCS expands safe spaces and creates platforms for dialogue and understanding, which are essential for establishing mutual trust and an environment conducive for transforming conflict. CPCS also works to build relationships with key individuals and institutions directly involved in peace processes, as well as key actors driving or influencing conflicts. These relationships provide a myriad of perspectives on conflict dynamics as well as opportunities to support and strengthen locally led efforts. New projects are frequently identified through feedback from these partners and are designed to fill identified gaps, strengthen conflict transformation approaches, or to bring together key actors to develop new strategies for reducing conflict.
